Hi jeff,

The big things to the City is looking forward to in 2023 are:

- Homeless Navigation Center is expected to break ground in winter of 2023 – and we hope it will be completed by the end of the year. This will be a huge help in addressing issues with unhoused individuals.
- Improving affordable housing
- Beginning the restoration of the Plaza Theatre
- The City's 85<sup>th</sup> anniversary on April 8 in the Downtown Park. The event will be from noon – 9 p.m. in the Downtown Park. Stay tuned for more details.
